Information about the company

1.	Information about the company	Vtor-Kom is a russian leading manufacturer of nonwovens and chemical fibers. We are one of the few Russian enterprises of a full production cycle, starting from waste recycling and finishing with manufacturing the final product. An effective use of reusable raw materials in production allows us to produce goods which are an par with foreign competitors. Yearly we recycle more than 25 000 tons of PET bottle and more than 500 tons of textile wastes. From this recycled materials we produce environmentally-friendly non-woven fabrics, which are widely used in different inductrial areas: road building, oil and gas, soft furnitire, mattracess, bedclothes and garments. For the last 10 years nearly 300 million sq. meters geotextiles from Vtor-Kom were put as basement for roads in all regions of Russia from Crimea to Russian Far North. Tens of millions pieces of garment and bedclothes made with our fillings and thermal insulations are giving comfort and warmth to its users. Our facility is situated at two sites: Sverdlovskiy trakt and Park of industrial innovations Malaya Sosnovka. All technological lines of the facility are fully automated. Vtor-Kom is an active participant of environmental initiatives, we constantly cooperate with volunteers, sports and charity organisations.
2.	Information about the product	Geo-woven nonwoven VK is a non-woven needle-punched geotextile having high strength characteristics. Uniform in thickness and density. It is used in road construction, oil and gas industry, railway construction and general construction works. It has all the necessary certificates, as well as approvals from the ROSAVTODOR FDA, AVTODOR Group of Companies and Russian Railways PJSC. Teplonit-VK waterproofing and anti-filtration fabric. The canvas combines the characteristics of geotextile (chemical resistance, resistance to rot, resistance to fungal formation, mold, destruction by insects and rodents, resistance to UV radiation), complemented by the waterproofing properties of LDPE film. It is used as anti-filtration screens; waterproofing and anti-corrosion coatings of concrete, brick, metal and other surfaces; separating and waterproofing layers; capillary-breaking and vapor-proof insulating layers. F-tex is a non-woven base, a high-quality non-woven substrate for the production of linoleum, tufted flooring, roofing and sound insulation materials, geocomposites and other synthetic non-woven products.

		Texilon is a modern volumetric nonwoven fabric. It is made of high-quality polyester fibers by thermal bonding method. It is used in the manufacture of outerwear and other household and technical sewing products, as well as as a filler in soft furniture and bedding. Voltex is a non-woven fillers and insulation materials based on Airlay technology. Voltex F is designed for the production of mattresses and soft furniture. Voltex Z is an insulating material with excellent thermal and sound insulation characteristics. It is used as a filler for interstitial space in heat and sound insulation systems for walls, ceilings, floors and roofs of buildings.
3.	Priority directions of export (countries, regions of the world)	CIS countries
4.	Company indicators (Your indicators for the year, for the entire existence of the company, any achievements in numbers)	- 35 years on the market in Russia. More than three decades of impeccable work and development; - Every year Vtor-Com JSC recycles 25 000 tons of PET bottles; - Every year Vtor-Com JSC recycles 500 tons textile waste; - Full production cycle. From the reception of recyclables to the release of finished products, the whole process is on one site; - Top 3 manufacturers. The company is one of the three leaders in the production of non-woven geosynthetic materials in Russia; - All our production lines are fully automated.
5.	Contact information of the enterprise (legal name, address, phone, email, website, social media pages, taxpayer identification number, HS code)	Vtor-Kom Joint Stock Company **Legal address:** Serdlovskiy trakt, b. 34, Chelyabinsk, Celyabinsk regon, 454008 **Taxpayer Identification Number (INN)** 7448004057 **Telephone**: +7 (351) 729-96-91 **Email:** priem@vtor-kom.ru **Website:** vtor-kom.ru **HS code:** 13.95, 17.12, 17.21, 20.60, 38.21, 38.22.9, 38.32.51, 47.19, 49.41.1, 49.41.2, 72.19
